

March 29, 2021  
Ref: PCSP-PW-2021-02  
Road Sweeper Attachment

Amendment # 1,  
The weight specification denoted in "g" is 2,200 lbs or less.  
Note: that a heavier sweeper would be fine as long as it matches the Loader specified.

Clarification #1  
Please note we confirmed the tender wants a 32 inch diameter bristle.

Clarification #2

Question:

Are you requiring the sweeper to run with its own engine for power (self driven) or are you accepting a sweeper that is powered hydraulically from the front end loader its attached to?

Reply:

We would consider both designs, it would be reflected in the evaluation and award of that equipment
