Town of Portugal Cove-St. Philip's
Development Regulations Amendment No. 34, 2024

PURPOSE

The Town of Portugal Cove-St. Philip's proposes to amend its Development Regulations. The growing demand for affordable housing and changing market conditions has led to an increase in demand for alternative housing types with higher density. Currently, residential development in Portugal Cove-St. Philip's is predominately single-family dwellings on medium to large sized lots. To help meet the demand for affordable housing, the Town has reviewed the development standards for fully-serviced townhouse developments in the Residential Medium Density (RMD) Land Use Zone. Townhouse is a discretionary use in the RMD Land Use Zone.

The purpose of this amendment is to revise the definition of a townhouse to increase the number of dwelling units that can be developed within one building and address the location of parking for these larger developments. In addition, this amendment proposes to reduce the minimum lot frontage required for townhouses in the RMD Land Use Zone from 12 metres per unit to 10 metres per unit and add a condition regarding a further reduction in the minimum frontage requirement for single owner townhouse developments.

Accommodating an appropriate mix of housing types within the Town is supported by Plan Policy RES-1 of the Municipal Plan 2014-2024:

"Council shall permit single-detached housing as the predominant use of land in areas designated Residential. Group homes and subsidiary apartments may be considered by Council as discretionary uses within single unit dwellings. Subsidiary apartments are typically secondary dwelling units that are located within the basement of a single unit residential home. Council may also consider granny suites as a type of subsidiary apartment where the secondary dwelling unit is built as an attachment to the main floor of the principal single unit home. Subsidiary apartments and granny suites are to provide for a firewall separation to the principal use in accordance with the National Building Code, and as secondary residential uses, are limited in floor area size in accordance with the provisions of the applicable use zones. Other types and densities of discretionary housing such as double dwelling, or duplex, may also be permitted, as detailed in Schedule C of the Development Regulations. Where higher density residential uses for apartments and townhouses are proposed as discretionary uses, Council may require site design information related to streetscape appearance, building and landscaping design, parking configuration and access, transition treatments to adjacent land uses and neighbourhood fit."

ST. JOHN'S URBAN REGION REGIONAL PLAN 1976

Development Regulations Amendment No. 34, 2024 is comprised of text changes to the Development Regulations only. No amendment to the Regional Plan is required.
