

Once your seed balls have dried, they are ready to go! Find some spots that might need a little extra beauty and plant a couple of your seed balls.

The rain will wash away the clay, the soil will help the seeds sprout, and the bees will thank you!

Celebrate Family Literacy Day with us!

Snap a photo of your beautiful seed balls and send them along for a chance to win an Indigo Gift Card.

Email your photos to Stacey.hanlon@pcsp.ca by 4:30pm Friday, January 31st for your chance to win!

SEED BALL KIT

**Portugal Gove
St. Philip's**

Let's Make a Seed Ball

YOUR KIT CONTAINS:

air dry clay

soil

seeds

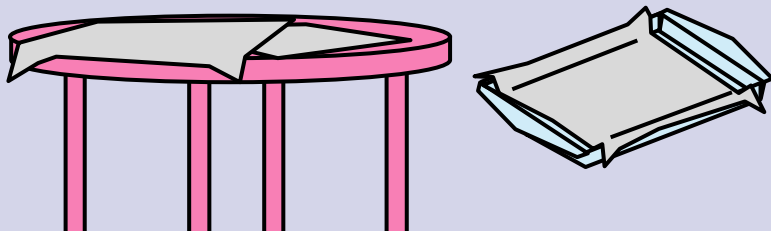

You will also need something to cover your workspace to help with clean up. You can use recycling material like newspaper or flyers.

LET'S GET STARTED:

1 gather your supplies together

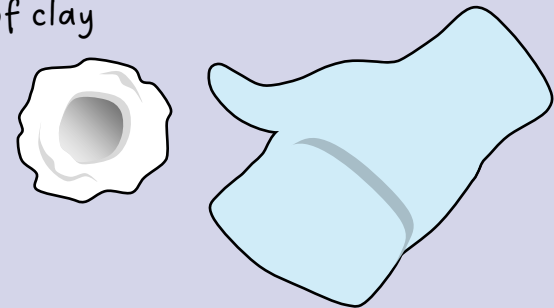

2 cover your workspace, maybe your kitchen table or cover a baking sheet

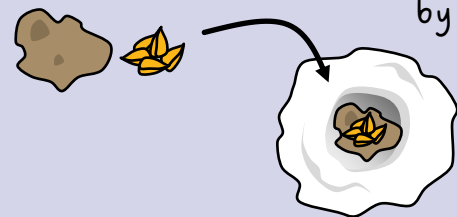

3 break off a bit of clay and roll it into a ball

4 use your thumb and make an indent in the ball of clay

5 poke a pinch of soil in the indent followed by a pinch of seeds

6 roll it back into a ball and set aside to dry
